## Summary

Trying to make "Hello World" the new "abc"

Hey , I'm Vipul Gupta, a B.Tech student (AI & ML) passionate about building full-stack apps using the MERN stack and learning practical AI.

# Projects I've worked on:

- # Notes Sharing Platform (dark/light mode, responsive design, admin panel coming soon)
- MyStudyTracker (in progress) – a personal academic dashboard for students
- Implemented Tailwind, Vite, and React Hooks for clean UI/UX

I'm focused on learning, building, and sharing. Currently seeking internships or remote work where I can grow as a developer.

Let's connect if you're working in EdTech, AI, or full-stack web development!
